

Laid Up Vehicles (SORN)

Product type

A personal lines insurance product suitable for owners of laid up vehicles which are the subject of a Statutory Off Road Notification (SORN).

What demands and needs are met by this product?

This product is designed for policyholders who require cover for fire damage to, or theft of, a laid up vehicle.

Who is this product designed for?

This product is suitable for personal lines policyholders wishing to insure laid up vehicles for certain contingencies.

Who is this product not suitable for?

This product is not suitable for those wishing to insure vehicles which are not the subject of a SORN, for example vehicles which are being used on public roads, or vehicles with a market value over £20,000. This product is not suitable for commercial lines policyholders.

How do we expect this product to be distributed?

This product is suitable to be distributed through a variety of sales channels.

What are the distributor value considerations?

Distributors should consider the impact on product value of offering other products alongside this one, especially those with proportionally greater remuneration. For example, an ancillary product, elements of which may duplicate existing cover, premium finance charged at an elevated rate of APR. Our expectation is that additional commission, fees or charges added as part of distribution processes must be proportionate to the service provided, in line with those charged elsewhere, and not affect the overall value offered by the product.

Scope

This document is intended to provide an indicative summary of the target market for this product and is not a summary of coverage. Please refer to separate policy documentation for full details of the coverage provided by your product.
